## Don't let your money drip away!

Leaking hot oil pumps pose **significant safety risks to your team and your business**, along with the financial losses and customer disruptions caused by unexpected leaks.

Roper Pump's Hot Oil Pump is the ideal solution, featuring an advanced triple lip seal that ensures **a leak-free design**. With the ability to handle temperatures up to 550°F, this pump delivers unmatched reliability and peace of mind.

The new Roper Hot Oil Pump provides enhanced flexibility with options for mounting, relief valves, and sealing, ensuring a custom fit to meet your specific needs. **Protect your employees, safeguard your business, and improve your bottom line** with Roper Pump.
