

## Introducing the Roper Pump eX Series: A New Breed Of Extreme-Condition Crude Oil, Condensate, and Abrasive Fluid Pump

October 2, 2023 – Roper Pump Company, a leading innovator of pumping solutions, is proud to unveil its latest product: the eX Series pump, engineered to revolutionize the industry with unmatched performance and durability.

The eX Series (65 size) pump stands as a testament to Roper Pump's commitment to excellence, boasting upgraded materials of construction that guarantee uncompromising reliability in the most eXtreme environments. This innovative design sets new industry standards, ensuring superior flow rates and unprecedented adaptability to handle a wide spectrum of hydrocarbons, from condensate to heavy crude.

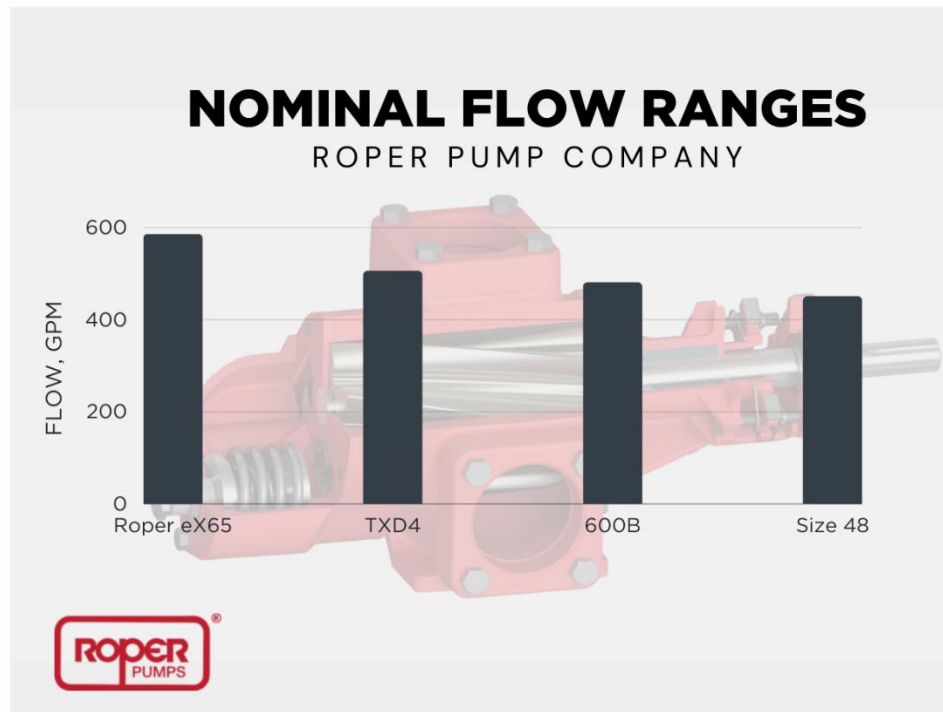

**5** Features  
*of Roper Pump's*  
**eX Series**

- 1. ENHANCED MATERIALS OF CONSTRUCTION**  
The eX Series pump utilizes alloy steel shafts that are surface hardened for durability.
- 2. UNRIVALED FLOW RATES**  
Experience industry-leading flow rates that outperform competitors, with a capacity of up to 585 GPM at 900 RPM.
- 3. MULTI-VISCOSITY CAPABILITIES**  
This eXtreme pump has the ability to handle hydrocarbons from condensate to heavy crude and other abrasive fluids.
- 4. ABRASION-RESISTANT**  
The eX Series extends the service life of your pump with eXceptional resistance to abrasive fluids, reducing downtime and maintenance costs.
- 5. FASTER TANK RUNS**  
This pump is designed to provide a faster and more efficient truck loading and unloading experience ensuring shorter run times and enhanced productivity.

The Roper Pumps logo is located at the bottom left of the infographic, consisting of the word "ROPER" above "PUMPS" in a red-bordered box.

"The eX Series pump is a testament to Roper Pump's dedication to pushing boundaries and redefining what's possible in fluid handling technology," stated Dan Johnston, V.P. of Sales and Marketing at Roper Pump Company. "We believe that the eX Series will not only meet but eXceed the expectations of our valued customers and channel partners, providing them with a reliable, high-performance solution that sets a new industry standard."

Roper Pump's eX Series is set to revolutionize fluid handling across various industries setting a new gold standard for performance, durability, and versatility.
